THE FACTS

behind

The Port of Stockton

4,500 JOBS

The Port supports more than 4,500 jobs in the San Joaquin County area, generating about $180 million in annual salaries and benefits

55 COUNTRIES

The Port is increasing trade relationships to more than 55 countries, with the value of cargo crossing our docks at more than $1 billion every year, an increase from $250 million just ten years ago

90% FERTILIZER IMPORTED

Over ninety percent of the chemical fertilizer used by the agricultural industry in the Central Valley is imported through the Port of Stockton

1,500,000 TONS EXPORTED

The Port of Stockton exports nearly 1.5 million tons of American products annually

$5,000,000 IN TAXES

The Port contributes more than five million every year in tax revenue which helps to support important services provided by San Joaquin County and the City of Stockton

THE MARINE HIGHWAY

The Port of Stockton inaugurated a Marine Highway service, which provides an efficient way to move products to and from the Central Valley by barge, while also improving air quality and highway safety

ENVIRONMENTAL INITIATIVES

The Port engages in a number of environmental initiatives which support wildlife habitats, and improve soil, water and air quality in our region
