

Port of Stockton Saving Money on Your Electric Bill

Looking for ways to save money on your electricity bill? Starting July 1, 2019 the Port of Stockton is offering cash incentives to its tenants for qualifying lighting and electric motor energy efficiency projects.

<u>Lighting</u>	
<u>On-Peak Energy</u> \$0.042 /kWh	<ul style="list-style-type: none"> ✓ Interior and exterior lighting ✓ LED luminaire retrofit utilizing qualified fixtures ✓ Screw-in cold cathode and Integral LED Lamp retrofits ✓ High efficiency signage or architectural lighting ✓ Lighting control systems ✓ LED exit signs ✓ Day lighting controls and dimmable ballast ✓ De-lamping measures performed as part of an integral update
<u>Off-Peak Energy</u> \$0.036/kWh	
24 hour <u>Operation Energy</u> \$0.040/kWh	
<u>Peak Demand</u> \$39 / kW	
<u>Motors and Other Equipment</u>	
<u>On-Peak Energy</u> \$0.042/kWh	<ul style="list-style-type: none"> ✓ Motor upgrades (all sizes) ✓ Variable-speed drives ✓ Industrial process applications ✓ Industrial fan replacements ✓ Industrial pump replacements ✓ Trimming impellers on industrial fans and pumps ✓ Exhaust hood and fan projects ✓ Dairy Vacuum Pumps/ Variable-speed drives (VSDs)
<u>Off-Peak Energy</u> \$0.036/kWh	
24 hour <u>Operation Energy</u> \$0.040/kWh	
<u>Peak Demand</u> \$39 / kW	

The incentive payment amount is based on a flat incentive rate (per kWh) applied to one year of energy (kWh) savings, plus a flat incentive rate (per peak kW) applied to the resultant permanent peak demand reduction. There is a maximum dollar amount for the incentive as well as other program limitations.

For more information contact Janice Dias at 946-0246 for the Program Manual and Application/Agreement or check out the Ports webpage.
