

**STOCKTON PORT DISTRICT
CYANOBACTERIA HARMFUL ALGAL BLOOM (CHAB) MAINTENANCE DREDGING
ADDENDUM NO. 1
September 21, 2026**

This Addendum No. 1 ("Addendum") is dated the date set forth above and modifies certain Request for Proposal (RFP) Documents issued by the Stockton Port District ("Port") in connection with the Port's **CYANOBACTERIA HARMFUL ALGAL BLOOM (CHAB) MAINTENANCE DREDGING**. All capitalized terms not otherwise defined herein shall have the meanings provided in the RFP. There are no other amendments to the RFP other than those which are expressly contained in this Addendum.

Q & A:

Q1. Is hydraulic dredging allowed? If not, please provide an explanation of why it is not allowed.

RESPONSE: Hydraulic dredging is not allowed under the current Contract Documents. The project, placement-site water-management approach, and environmental permits were developed based on mechanical dredging. The distance from the dredging site to the Roberts Island DMPS makes hydraulic dredging impractical with conventional equipment. In addition, the placement plan does not provide for managing the substantially greater volume of carrier water for that length of pipe.

Q2. Can in-water work be performed after November 30 with the use of Herring Observers on board the dredging equipment?

RESPONSE: No, this will not be allowed under the existing permit conditions.

Q3. The Roberts Island DMPS will act as a containment pond, and does not have overflow weirs to allow discharge of effluent back to the river. Therefore, the Contractor shall assess the storage capacity of the placement area prior to bidding to plan its quantities to avoid exceeding the storage capacity of Roberts Island DMPS.

Please provide current topographic survey of the disposal site or make accommodations for contractor inspection prior to bid time to comply with the above spec.

RESPONSE: The Port verifies that there is enough capacity at Roberts Island, a survey or inspection is not required.

**RETURN THIS PAGE TO ACKNOWLEDGE RECEIPT OF ADDENDUM NO. 1 FOR THE
PORT'S CYANOBACTERIA HARMFUL ALGAL BLOOM (CHAB) MAINTENANCE DREDGING
PROJECT.**

Please sign and return this page only via email to procurement@stocktonport.com to acknowledge receipt of Addendum No. 1 for this solicitation consisting of **two (2)** pages and the attachment(s) listed in the Attachments section above.
